PRELIMINARY RECITALS

Pursuant to a petition filed August 19, 2015, under Wis. Stat. § 49.45(5), and Wis. Admin. Code § HA 3.03(1), to review a decision by the Division of Health Care Access and Accountability in regard to Medical Assistance, a telephone hearing was held on September 15, 2015, at Milwaukee, Wisconsin.

The issue for determination is whether the Division correctly denied a prior authorization request for an upper partial denture.

There appeared at that time and place the following persons:

FINDINGS OF FACT

1. Petitioner is a resident of Milwaukee County. She is certified for MA.

2. On June 23, 2015, a prior authorization request was submitted on the petitioner's behalf for a maxillary (upper) resin partial denture. The Division issued written notice of denial on July 23, 2015.
3. The Division's bases for denial were that (1) with her prostheses, the petitioner is not missing at least six teeth in her upper arch, and (2) the petitioner retained at least two posterior teeth per quadrant that were in occlusion with lower teeth.
4. The petitioner is missing teeth #19, #29, and #32 in the lower arch. She is also missing #1, #2, #5, #13, #15, and #16 in the upper arch, and has prosthetic replacements (partial dentures) of certain teeth in her upper arch.

DISCUSSION

A partial denture can be a covered service for an MA recipient, subject to prior authorization. Wis. Stat. s.49.46(2)(b)1m. For any prior authorization request to be approved, the requested service must satisfy the generic prior authorization criteria listed at §DHS 107.02(3)(e). Those criteria include the requirement that the service be medically necessary and appropriate. *Id.*, 1, 2.

A partial denture is a prosthetic device, which replaces some missing teeth in an arch and is held in place by remaining natural teeth. An arch is half of the mouth, either the upper (maxillary) arch or lower (mandibular) arch.

The Department has developed a policy document, the *Medicaid Providers Online Handbook*, to provide more uniform guidance as to when a requested dental procedure is medically necessary and appropriate. Application of the policy, shown below, resulted in the determination that the request was not appropriate at this time:

Topic 32895

Partial Dentures

Wisconsin Medicaid reimburses for partial dentures only for members with good oral health and hygiene, good periodontal health (AAP (American Academy of Pediatrics) Type I or II), and a favorable prognosis where continuous deterioration of teeth and periodontal health is not expected.

A member qualifies for a partial denture if any of the following criteria are met:

- ...
- The member has less than two posterior teeth per quadrant in occlusion with the opposing quadrant
- The member has at least six missing teeth per arch, including third molars.
- The member requires replacement of anterior teeth for employment reasons.

...
If placement of a partial denture in an arch provides at least two posterior teeth (posterior teeth are bicuspid and molars only) per quadrant in occlusion with the opposing quadrant, the opposing partial, if requested, may not be authorized unless the member also has an anterior tooth missing in that arch.

There is no dispute that the petitioner is missing six or more teeth in her upper arch. However, she already has had certain teeth in the arch prosthetically replaced, and those prostheses are counted for purposes of

PA approvals. The Division has acted consistently with its policy, which is not unreasonable. Petitioner has not established that placement of a partial denture in the arch fails to provide at least two posterior teeth (posterior teeth are bicuspid and molars only) per quadrant in occlusion with the opposing quadrant, and an anterior tooth missing in that arch. As such, I must conclude that the respondent correctly denied this PA request.

CONCLUSIONS OF LAW

The Division correctly denied the instant prior authorization request for an upper partial denture because the denture was not medically necessary, given the current state of the petitioner's dentition.

THEREFORE, it is

ORDERED

That the petition is dismissed.
